

Inclusive Special Needs Ministry Atrium/Classroom Wish List

Many, specific sensorial and manipulative materials are necessary for us to include all the children into the catechesis setting. We want all children in our Catholic community, especially those with special needs, to be served, welcomed, and able to learn about and practice their faith side by side with their peers. Because of the economic downturn of the last several years and its effect(s) on families, it is often difficult to find the extra funding for these specific materials.

Please consider a donation to this essential children's ministry. Any of the following items donated would be greatly appreciated.
